**12 COPIES TO CLUBS FOR \$20.  
THE COLUMBIAN MAGAZINE FOR 1845.**

EDITED BY JOHN INMAN & ROBERT A. WEST.  
Prospectus for the Second Year.

AT the close of this second volume, the Magazine having been commenced on the first of January, 1844, the publisher finds himself irresistibly called on to express the satisfaction and gratitude with which he has been filled by the brilliant and unexampled success that has attended his endeavors to win the public favor. Notwithstanding the difficulties, disappointments and vexations that almost invariably follow the establishment of a new periodical, in the production of which there must be the harmonious co-operation of many head and many hands—notwithstanding occasionally shortcomings, especially in the pictorial department, which no care or diligence could avert and no expenditure prevent, the Columbian Magazine has gone on steadily increasing in support and popularity from the opening number, and if the unthought unsolicited testimony of the press may be received as unswayed by partiality and unbiassed by friendship, the efforts of contributors and editor have fulfilling the promises made for them at the commencement of the enterprise.

The publisher undertook the work with a firm conviction that the great city of New York was the best and the true home for a magazine of general literature; that notwithstanding the failure of many previous attempts to establish such a work, there could be no impossibility of success with sufficient capital, perseverance and the right system of management both by publisher and editor; stimulated by this conviction he embarked in the enterprise and the result of the first year has proved that his judgment was correct.

It has long ceased to be necessary, or reasonable, that we should speak of the Columbian as an experiment. At all events, it is now an experiment substantially tried. We feel ourselves upon as firm a basis as any similar journal in the world.

Our principal cares now regard not so much the securing what ground we have gained (for we consider this sufficiently secure) as the extension of our sphere of action and utility—not so much, even, the mere enlargement of our subscription list, as the most suitable modes of catering for the amusement (and shall we say occasionally for the profit) of our subscribers in the present and in the future—the many whom we have, and the many more we shall undoubtedly have as time rolls on.

We have made arrangements which will enable us to present our friends with embellishments of very superior taste, style and finish. In this respect it is our firm purpose, if possible, to outvie all competition. Our music and engravings, we confidently believe, will not be equalled—very certainly they shall not be surpassed in real merit by those of any other magazine. We propose to give each month two or more superb engravings, independently of two pages of music, by the most eminent composers, and a plate of authentic fashions.

Regarding the literary and editorial conduct of the Columbian, the publisher does not feel called upon to say more than a very few words. The general management of this department is, as heretofore, entrusted to a gentleman possessing every qualification for the task, and who has given abundant evidence, not only of the highest ability to put forth a meritorious magazine, but of the ability to put forth a magazine exactly adapted to the tastes of our readers. The publisher, therefore, has every confidence that what has already been done for the literary value of the journal will be done again. We are perfectly willing that our future in this respect shall be estimated by our past. The subjoined list of those who have furnished articles for the Columbian during the by gone year will satisfy, we feel assured, the most fastidious that we are resolute to spare in no particular neither exertion or expense.

With the aid of these contributors, (of whom it is needless to say one word in the way of commendation,) and of numerous others perhaps equally meritorious if less celebrated, who have promised us their support, we flatter ourselves that, as a literary work, the Columbian need be under no apprehension of being excelled.

But what we have done is already before the public, who will not fail to judge us with impartiality; and in respect to what we intend to do, it will be both wiser and more becoming (although less fashionable) not to boast. We may be permitted to assure our friends in brief however, that we have matured numerous plans (for the third volume) with which we feel confident they will be pleased. It is our purpose to put forth every energy; and it will be no fault of our own if the Columbian shall not be found at least equal to any magazine, of any class or price, in America.

DEALERS in PERIODICALS throughout the United States and the Canadas, who wish to become agents for the Columbian Magazine will please apply to the publisher immediately. The usual discount will be made to them.

**Save your Corn Cobs and Shucks.**

TO THE PLANTERS AND MILLERS OF NORTH CAROLINA.

THE undersigned has obtained Letters Patent, to enable common Mill stones (or rocks) now in use, to grind **CORN COB and SHUCK**, into meal, for **HORSES, MULES, CATTLE, HOGS, &c.**, thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the stones last, with an expense of 50 cents every five years. To enable the common Mill Stone to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Threshing Machines, Gins, or any given power known. The same Mill will grind one-third more of Corn Meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds. Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constituting in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce the necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. Read the subjoined certificate.

The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent.

**CERTIFICATE.**

Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me speedily way of feeding my horses and cattle, and save much thereby.

**CAREY FOR SALE.**

BEING desirous of moving to the West, I offer for sale my plantation on Topsail Sound, (called Oakley,) 12 miles and a half from Wilmington; containing four hundred acres, of which, about three hundred and twenty is cleared, the balance heavily timbered, and in point of fertility, are equal, if not superior to any lands on the Sound, and particularly adapted to Corn and Ground Peas. The improvements on this place, are nearly all new, the dwelling House having recently undergone a thorough repair. New Barn, Stables, Waggon House, and all necessary out buildings. The dwelling House is situated on a high bluff overlooking the ocean, with a fine inlet in front, and as regards beauty, health, and convenience to the best Fish and Oysters, is not surpassed by any other residence on the coast. Further description would be unnecessary as it is preterfumed that those wishing to purchase would first view the premises. I am determined on selling, and a bargain may be had.
